HB #267

Amendments to House Bill No. 267  
1<sup>st</sup> Reading Copy

For the House Transportation Committee

Prepared by Bruce M. Spencer  
Property Causality Insurance Association of America

January 30, 2015

Section 5 (19) "Transportation network carrier services" means the transportation of a passenger between points chosen by the passenger and prearranged with a transportation network carrier driver through the use of a transportation network carrier digital network or software application. ~~Transportation network carrier services begin when a transportation network carrier driver accepts a request for transportation received through the transportation network carrier's digital network or software application service. Services continue while the transportation network carrier driver transports the passenger in the transportation network carrier driver's vehicle and end when the passenger exits the transportation network carrier driver's vehicle. Transportation network carrier service is not taxi service, street-hail service, or a for-hire vehicle service."~~
